Please use other side for expanded answer space or additional information.

Also, in one page typed or two pages longhand, please tell us about you, your family, and your business or profession. Tell us about the following things as well: where you were born, where you attended school, any degrees you earned, when and why you moved to the Monmouth-Independence area, any military service, your past accomplishments, and goals and ambitions you may have for the future. If retired, what was your business or profession and what was your part or function in that business or profession. (Sort of a glorified resume)

\*\*The last part of this information can be given to us when you give your vocational talk if you prefer.
